SLIDER SHOT INTO ROOM:

DORM ROOM

Camera slowly approaches student on the computer

Clicking of the keyboard, darkness other than the stark light from the screen glinting off of his glasses

Multiple tabs, social media mostly.

COMPUTER AI (FEMALE VOICE)

"65% uploaded"

STUDENT (~20 YEAR OLD MALE)

Mumbling under his breath, reading off several posts.

Cut to a view of his screen, multiple files being uploaded, too many to read into, photos of what appears to be family.

COMPUTER AI

"70% uploaded"

STUDENT

"I guess it's about that time..."

He starts to tidy up his desk, shoving papers into his bag, leaving all but one on the desk. He begins to exit out of all of his tabs.

COMPUTER AI

"75% uploaded"

Camera backs away from desk, the shot gets wider, darkness envelops the student, after closing his internet browser all light now emanating from the loading screen on his desk and his dim desk lamp.

COMPUTER AI

"80% uploaded"

STUDENT

"All I ever wanted, soon to come to reality."

Suddenly on screen a slide show of various pictures; with friends, family, it's as though they are deleting, or disappearing from the screen.

COMPUTER AI

"Synchronization 85% complete, uploading user files"

STUDENT

(Breathing slowly, awkwardly relaxed staring ahead, waiting.)

COMPUTER AI

"90% Complete"

CAMERA CLOSING IN ON THE FOLDED UP PIECE OF PAPER, SITTING BY ITS LONESOME ON THE DESK... THE LOGO "CLOUD" BADGED ON THE FRONT

COMPUTER AI

"95% Complete"

STUDENT

Camera close up to face, glare in glasses... you can see the students eyes close shut

COMPUTER AI

"100% Complete, welcome to cloud AI"

Mid range shot showing student at the desk... letter is visible as well

Computer reboots, a strange noise and suddenly the student disappears as though he were made of dust.

Camera slowly backs out, computer starts up, now a male AI voice, presumably close to the student

COMPUTER AI (MALE VOICE)

" Welcome to Cloud Intelligence"

CUT TO BLACK:

THE END
